AUTOSAR HIGH-LEVEL DESIGN (HLD) SPECIFICATION [LEGACY]

System Component: Body Control Module (BCM) Software Architecture

Document Ref: BCM-HLD-AUTOSAR-REL-2025-v2.3 | Status: Superseded Baseline | Safety Class: ISO 26262 QM/ASIL A

1. System Overview

Legacy baseline specification v2.3 for the Body Control Module. Prior to introduction of advanced wash pump control and ASIL B exterior lighting upgrades.

2. Legacy Software Components (SWC Inventory)

Component Name (SWC)	SWC Type	Status in v2.4
`SWC_ExteriorLighting`	Application SWC	Retained (Updated to ASIL B)
`SWC_AnalogLightingLegacy`	Sensor-Actuator SWC	DEPRECATED / REMOVED in v2.4
`SWC_CentralLocking`	Application SWC	Retained
`SWC_PowerManagement`	Service Proxy SWC	Retained

3. Legacy Port Matrix

In v2.3, SWC_WiperControl did not exist as a dedicated component; basic wiper logic was embedded inside SWC_AnalogLightingLegacy. The port P_WashPumpControl was not defined.
